

Philips
Car entertainment system

8.9 cm (3.5") touch screen

Bluetooth DVD

CED370

Seamless music and video enjoyment on the road

Philips CED370 features a 8.9 cm/3.5" wide (16:9) LCD display for video & photo playback for ultimate entertainment in your car. Also enjoy movies & music from multiple sources and never miss a call due to its built-in Bluetooth® receiver.

Enrich your AV entertainment experience

- USB Direct and SDHC card slots for music and video playback
- Play DVD, DVD+/-R, DVD+/-RW, (S)VCD, DivX® and MPEG4 movies
- MP3 Link for portable music playback

Superb performance with full features

- Dynamic Bass Boost electronically enhances the low tones
- Super anti-shock protection for smooth music enjoyment
- Built-in Bluetooth receiver for call and music streaming
- 8.9 cm/3.5" full color display for video and photo playback
- 3-band parametric equalizer with 8 presets
- Built-in 50W x 4 amplifiers for excellent sound quality
- Rear-view camera mode for backing up safety
- Dual video outputs for entertainment in rear seats

Design that blends into your car

- Detachable flip-down front panel for anti-theft security

PHILIPS
sense and simplicity

Highlights

DBB Dynamic Bass Boost

Activate the Dynamic Bass Boost (DBB), and the low-end bass frequencies are electronically enhanced to achieve consistent sound reproduction, especially when the speaker volume is set at a low level. You hear impressive bass at all times.

Super anti-shock protection

Super anti-shock protection for smooth music enjoyment

8.9 cm/3.5" full color display

The color LCD display brings images to life, showing off your treasured photos, favorite movies and music with the same 'real life' rich detail and vibrant colors as high quality prints. The 16:9 widescreen aspect ratio is standard for universal to high-definition digital television. A native 16:9 aspect ratio means video display without bars at top and bottom of the picture and without the quality loss than comes from scaling, altering an image to fit on a different screen size.

Built-in Bluetooth receiver

The Bluetooth hands-free feature lets you use your mobile phone safely while driving and you don't have to miss any important calls. With the built-in Bluetooth® receiver, you can also conveniently stream your music files from your phone to your car entertainment system.

USB Direct and SDHC card slots

Thanks to the complete file transferability, you can easily enjoy the convenience and fun of accessing more music, videos and photos via the built-in USB Direct and SDHC card slots.

DVD, DVD+/-R, DVD+/-RW, (S)VCD

The Philips player is compatible with most DVD and CD discs available in the market. DVD+/-R can accept both of the common recordable DVD formats. Likewise, DVD+/-RW handles both common rewritable disc types. The quality of a SVCD (Super VideoCD) plays much more sharpen picture than a VCD because of the higher resolution. MPEG4 is

designed to deliver DVD-quality video (MPEG-2) at lower data rates and smaller file sizes. The DivX codec is an advanced MPEG4-based video compression technology to shrink digital video to sizes while maintaining high picture quality.

MP3 Link

The MP3 link connectivity allows direct playback of MP3 content from portable media players. Besides the benefit of enjoying your favorite music in the superior sound quality delivered by the audio system, the MP3 link is also extremely convenient as all you have to do is to plug your portable MP3 player to the audio system.

Detachable front panel
